

## Texas-R2

### CHARACTERISTICS

- 4 poles electrical induction motor 1400 RPM with thermal protection
- Brass linear pump with three ceramic coated pistons, double water seal and built-in by-pass valve
- Suction and delivery S. S. valves.
- Temperature regulation thermostat with high sensitive stainless steel sensor.
- Auxiliary motor for burner
- Delayed Total Stop
- Professional control panel with Microleaks detector, Maintenance alert light, Power light, Diesel reserve warning light
- Easy maintenance of motorpump and electronic panel by simply removing of the cover.
- Vertical Diesel burner with high thermal efficiency steel coil.
- Detergent built-in tank (4,2 lt) for indirect suction.
- Pressure gauge
- Low Diesel light
- Hose reel with brake **(optional)**.

**PLUS**

Side supports for gun and lance housing

Sturdy large diameter wheels for stability and ease of movement

Professional motor pump with 4-pole motor (1400 rpm) and self-priming linear pump: the low rotation speed significantly extends the life of the components inside the motor pump, guaranteeing greater efficiency and silence

Diesel oil level sensor with fuel shortage indicator light
